

Mako IT

There are countless IT companies out there.

What sets Mako IT apart?

We don't do IT Support, we use a pro-active approach with every service we provide. Managing IT keeps your business running ahead of the competition. Network Management from Mako IT allows you to start using IT as a valuable resource.

What does Mako mean?

Mako is a particularly special type of shark. It's sleek design and power make it the fastest fish in the sea, it can jump higher than a merlin. We feel that the evolution, speed and protection that the Mako embodies, matches our ethos.

Some of the services we provide are:

- Bonded aDSL
- Email Security
- IT Sales
- Mobility
- Virtual Office Servers

Call or email Mako IT for more information or to discuss your requirements.
